<Handling Caution>

- Please do not conduct any modification to the product or it may cause a serious accident or damage.

-Modellista parts cannot be combined with "Toyota genuine parts" and "TRD parts" in principle.

-When towing the vehicle with a front spoiler, the front spoiler may be deformed.

<Aero Parts>

-When installing aero parts, the clearance with the road surface becomes narrow, and it becomes easy to interfere with curb bump or slopes on road. Also, aero parts may be damaged under snows or freezes.

-Aero parts are made of resin (ABS/PPE). This material is weak to impact in general. Especially, be careful when it is extremely cold.

-Painted parts may not have the exact same paint color as the standard vehicle.

<Alloy Wheel/Tire>

-Please be noted that Installation of "Alloy Wheel Set" may increase the driving sound or lower the draining level during rain and grip during snowing condition. Also driving comfortability or steering stability may differ from standard vehicle. Tires may wear faster compared to standard tires. Tire chain may not be applicable.

-When installing "Alloy Wheel & Tire Set", please follow the above application.

-Tire may interfere or protrude if tire other than setting are installed.

-The wheel nut adapter and dedicated pattern key included with the product are required if tire puncture. So, always be keep them on the vehicle.
