

MODELLISTA Rolls Out Customized Parts for All-New “LEXUS IS”

November 5, 2020

TOYOTA CUSTOMIZING & DEVELOPMENT Co., Ltd. has lined up MODELLISTA brand customized parts as "F SPORT PARTS (MODELLISTA)" for all-new “LEXUS IS” and released it on November 5th, 2020 through Lexus stores nationwide.

The aero parts developed based on the concept of "ELEGANT EMOTIONAL EDGE" consist of four parts, "Front Spoiler", "Side Skirt", "Rear Styling Kit" and "Trunk Spoiler". Their sleek styling and L-shaped plating decoration further accentuate the sporty look of IS while creating a sense of advancement, a symbol of MODELLISTA.

In addition, the newly setting "19 inch Alloy wheel" have spokes that spread outward to create a contrast of light, and the black sputtering process on the surface gives a sporty yet stylish sparkle and produces MODELLISTA's worldview.

<Handling Caution>
 -Please do not conduct any modification to the product or it may cause a serious accident or damage.
 -Please be noted that the garage jack may not be used at the specified position due to the installation of modellista parts.

<Aero Parts>
 -When installing aero parts, the clearance with the road surface becomes narrow, and it becomes easy to interfere with curb bump or slopes on road. Also, aero parts may be damaged under snows or freezes.
 -Aero parts are made of resin (ABS/PPE). This material is weak to impact in general. Especially, be careful when it is extremely cold.
 -Painted parts may not have the exact same paint color as the standard vehicle.

<Sport Muffler>
 -When installing a sport muffler, the clearance with the road surface becomes narrow, and it becomes easy to interfere with curb bump or slopes on road. Also, sound quality and performance may change. It may be discolored by heat or rust on the surface due to the characteristics of the material.

<Alloy Wheel/Tire>
 -Please be noted that installation of Alloy Wheel & Tire Set or Alloy Wheel Set (Tires installed separately) may increase the driving sound or lower the draining level during rain and grip during snowing condition. Also driving comfortability or steering stability may differ from standard vehicle. Tires may wear faster compared to standard tires. Tire chain may not be applicable.
 -When installing Alloy Wheel & Tire Set or Alloy Wheel Set (Tires installed separately), please follow the above application.
 -Tire may interfere or protrude if tire other than setting are installed.
 -When installing Alloy Wheel & Tire Set or Alloy Wheel Set (Tires installed separately) to size up, part of the driving support devices and preventive safety functions must be deactivated. For the details, please check the instruction manual of the vehicle.
 -When installing Alloy Wheel & Tire Set or Alloy Wheel Set (Tires installed separately), must use the vehicle standard hub bolts.
