※2.When a tire punctured, genuine jack cannot be used.

※3.Price of Alloy Wheel & Tire Set includes nuts, center caps, TPWS valves, lock nuts and dedicated pattern key.

⚠ Drilling to the body/bumper or resin product will be required when installing.

<Handling Caution>

- Please do not conduct any modification to the product or it may cause a serious accident or damage.
- Please be noted that the garage jack may not be used at the specified position due to the installation of modellista parts.

<Aero Parts>

- When installing aero parts, the clearance with the road surface becomes narrow, and it becomes easy to interfere with curb bump or slopes on road. Also, aero parts may be damaged under snows or freezes.
- Aero parts are made of resin (ABS/PPE). This material is weak to impact in general. Especially, be careful when it is extremely cold.
- Painted parts may not have the exact same paint color as the standard vehicle.

<Alloy Wheel/Tire>

- Please be noted that installation of Alloy Wheel & Tire Set or Alloy Wheel Set (Tires installed separately) may increase the driving sound or lower the draining level during rain and grip during snowing condition. Also driving comfortability or steering stability may differ from standard vehicle. Tires may wear faster compared to standard tires. Tire chain may not be applicable.
- When installing Alloy Wheel & Tire Set or Alloy Wheel Set (Tires installed separately), please follow the above application.
- Tire may interfere or protrude if tire other than setting are installed.
- When installing Alloy Wheel & Tire Set or Alloy Wheel Set (Tires installed separately) to size up, part of the driving support devices and preventive safety functions must be deactivated. For the details, please check the instruction manual of the vehicle.
